PAYING THE BILLS OF THE REBELS.

And, fellow citizens I have here bills re the feed. He was not gone long or he was seen coming to the wagon with his hat in one hand and a sack of eats on his shoulder.

We regret to say that Willis Sutamers, one of the old citizens of Andrew, has removed from this section of the country. He traded his farm, consisting of one hundred and sixty acres, for a tract of two handred and fifteen acres, situated on the Platte River about two and a half miles from Conception. He will now seek his fortune in Nodaway. More than thirty-five years ago, he came from Tennessee to this State. During

In the disbursement of public money this table also shows that during General Jackson's second term the loss by defalcation was \$10 55 for each \$1,000 in Mr. Van Buren's term it was \$21 15 for each \$1,000 in John Tyler's term it was 528 for each \$1,000; in Mr. Lincoin's time, or during the war. It was \$141 for each \$1,000; in Johnson's time it was forty-eight cents in each \$1,000; in General Grant's first term it was forty cents for each \$1,000, and in Gen. Grant's second term it was twenty-six cents for each \$1,000. During the whole period from January 1, 1834, to June 30, 1861, the loss in disbursing public money, under Democratic administrations, was \$9 62 for each \$1,000; and from July 1, 1861, to June 30, 1875, under Republican administrations, is was 97 cents for each \$1,000. This table shows at once the degree of fidelity in the collection and disbursement of by actual results and by authority that cannot be questioned or denied. In the light of these facts, how abourd it is to appeal to you to restore the Demo party to power again to secure he and fidelety in public officials.

SHAM RETRENCHMENTS. But they tell you they are for re-trenchment. They tell you what a Dem-ocratic House has done to reduce ex-penditures. Well this House has slashed penditures. Well this House has slashed away at a great rate. They have refused appropriations for the most necessary wants of the Government. They reduced the pay of clerks fixed by law in 1835, when the pay was gold, and fixed oy a Democratic Congress. They reduced the pay of foreign ministers and counsels fixed in 1856. They have reduced in a wild, hap hazard way the sums appropriated for public buildings in process of erection, and for the support of Courts regulated by law, and next winter they will be composited to port of Courts regulated by law, and next winter they will be compolled to make them good by deficiency bills. It is the old demagogical trick of a par-ty in opposition wishing to gain power.

"The devil when sick, the devil a monk would-be: The devil got well, the devil a monk was he."

It is easy to cut down appropriations, but this is not always retrenchment. A man might retrench both bread and meat, and he would starve. True re-trenchment consists in pcodacing the best results with the smallest sum nec-

gold for similar purposes. Consider-ing the increase of population and the depreciation of currency of currency, our regular expenditures not growing our regular expenditures not growing out of the war are less per capita than before the war. But the great body of our expenditures in 1875, as for every year since the war, were for items di-rectly caused by the war, amounting to \$189,849,630, such as interest on the public debt, pensions, claims, and the like, a detail of which I have in this document, and all of these are the dilike, a detail of which I have in this document, and all of these are the direct result of the war, and are properly chargeable to the Democratic party by the cause and author of the war. And in the future the Republican pasty is much more likely to reduce these items than the Democratic party.
